

# A Basics Guide

Wireless Charging

## Porthole III wireless charger.

### Operation

Simply place your wireless induction charging compatible device on the charger. A beep will acknowledge the connection, LED's will illuminate around the charger's perimeter and charging will commence. Accurate positioning on the charger is essential and is dependant on the position of the receiver in the device being charged. Therefore, the device may need to be repositioned before charging commences.

### Compatible smart phones

- ✓ Apple iPhone: 8, 8 Plus, X
- ✓ Samsung Galaxy: S9, S9+, Note 8, S8, S8+, S7, S7 Edge, Note 5, S6, S6 Edge
- ✓ LG: V30, G6 (US version only), G4 (optional), G3 (optional)
- ✓ Microsoft Lumia: 1520, 1020, 930, 929, 928, 920
- ✓ Google Nexus: 4, 5, 6, 7 (2013)
